Mechanical Options

Description and Specification	List Price
Oversized Platform - platforms can be increased in width and length up to additional 24". Side and end load capacities are derated 2% per inch of increase and oversized models must be lagged to the floor.	\$210.00
Platform with Beveled Edges - welded at 30 degree angles, increases the standard platform by 4" on all sides	\$440.00
Pit Mounted Units - for ground level applications require a Platform with Beveled Edges. Lifting Eyes required for installation.	See Option
Lifting Eyes - provided for installation and transporting of unit with a sling or lifting chain	\$130.00
Portable Units - wheeled dolly handle and two 5" fixed wheels (specify side or end mounting) for moving empty lifts. Overall lowered height is not changed when unit is in an operating position. Oversized Platform	\$250.00 Call
Transportable Units - 6" steel casters, two fixed and two swivel, and a Presto floor lock mounted underneath base frame. Adds 9 3/4" to the lowered height only available on AXS, AXSR, and AXST. Oversized Platform	\$480.00 Call
V Grooved Wheels - 5" steel wheels for Transportable Units only, sold per pair.	\$130.00
Ball Transfer Tops - for multi directional movement of work loads, available for all load weights. Adds 2" to overall lowered height.	Call
Floor Stands - designed to increase the lowered height of filters	Call
Motion Stabilizer - reduces the "bounce" found in pneumatic tilt tables.	\$140.00

Description and Specification	List Price
Detent Stops - manual or spring activated stops for a Turntable, standard stops positioned at 90 degree increments Manual Spring	\$140.00 \$140.00
Positioning Lock - Pneumatically actuated lock for turntable tops, securely locks the turntable in any position. Must be used in conjunction with a Turret bearing system.	\$425.00
Conveyor Top - mounted to the lift table platform these 1.9" diameter rollers on 3" center have a 1000 lb capacity per linear foot. Adds 4" to overall height 24" x 36" platform 24" x 48" platform 24" x 64" platform Custom sizes and designs available	\$240.00 \$310.00 \$400.00 Call
Conveyor Sides - used to retain product on conveyor tops, recommend on all Transporting Units. Fixed 3" sides Movable 3" sides	\$80.00 \$110.00
Optional Top Material - for special handling of loads, v tops, aluminum material, stainless steel, diamond plate, etc.	Call
Accordion (Bellow) Skirts - designed to cover to scissor leg assemble of the lift table.	Call
Fork Pockets - used for moving scissor lifts between work stations.	Call
Increased Vertical Travel - can be achieved by stacking two air bags, call with your application.	Call
Degree of Tilt - can be increased on pneumatic tilts by stacking two air bags, call with you application.	Call
